The new Pure 13 BT.

A revolution in precise hearing.

The world-leading Signia experience just got even better with a new era in Bluetooth-driven hearing. The new Pure™ 13 BT delivers effortless hearing for your individual lifestyle. Stay connected to everything that matters whether you are taking it easy or on the move.

Get used to your new hearing aids as quickly as possible.

Personal care, anywhere: The myHearing App provides you with all the support tools you need for a relaxed journey to effortless hearing. You can follow special listening exercises, consult the user guide and connect to your Hearing Care Professional on the go.

Your Hearing Care Professional will be happy to advise you.

The myHearing App is compatible with iOS and Android. Its download on the Google Play Store or Apple App Store is free of charge.

The best hearing experience just got even better.

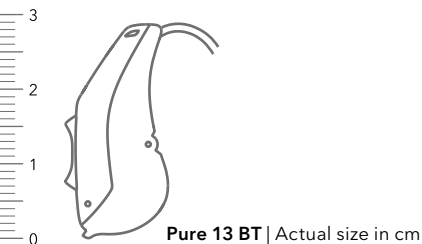

In combination with the myControl App, Signia Pure 13 BT gives you better than normal hearing* tailored to your individual lifestyle. The app

does more than enable direct streaming, it also sends information to your hearing aids for the best possible hearing while you are on the move, ensuring your relaxation and safety whatever comes your way.

The myControl App is compatible with iOS. Its download on the Apple App Store is free of charge.

Pure 13 BT hearing instruments:

Five advantages of Bluetooth-driven hearing.

Better understanding

Improved awareness

Sound exposure

The hearing aids help you to look after your hearing health. Similar to a fitness tracker, they create your own individual sound profile over time based on noise exposure so you can learn how to protect your hearing.

Motion reader

The hearing aids adjust their settings based on the myControl App's motion data to deliver optimal hearing even when moving.

Pure 13 BT

myControl App

Phone calls

Stream phone calls directly from your smartphone to your hearing aids for complete convenience.

StreamLine TV

Thanks to StreamLine TV, audio from your television can be fed directly into your Pure 13 BT hearing aids. You can even adjust the volume individually via the myControl App.

Music

Listen to your favorite music streamed directly into your hearing aids for an outstanding sound experience.

Signia tinnitus solutions

Tune out tinnitus with the unique built-in tinnitus therapies from Signia.

Ask your Hearing Care Professional which solution is best for you.

Enjoy life's true sound.

Whether you're working, shopping or eating out - holding conversations in busy places is tiring. Even people without hearing loss know this.

Pure 13 BT gives you effortless and better than normal hearing in such challenging situations.* And in combination with the myControl App, Pure 13 BT delivers the optimal personalized listening experience so you can focus on what's important whatever you're doing.

* Two independent clinical studies have shown that Signia hearing aids with binaural processing provide better than normal hearing capabilities in certain demanding listening environments.
